

# Cash flow

## that keeps up with your business.

### Meet order minimums

Scaling production means bigger bills - funding lets you buy in bulk.

### Ship sooner

Deliver orders the moment they are ready - keep the engine running.

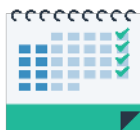

### Grow your limit

Funding capacity grows with each invoice funded.

### Maximize uptime

Working capital on-hand means being able to start orders right away.

### Pay bills on time

Storage, supplies, and rent paid with funds from your unpaid invoices.

### Cash cadence

Maintain a smooth, predictable, cash flow schedule.

---

## Don't wait to get paid.

FundThrough helps entrepreneurs and business owners eliminate cash flow gaps through **short-term invoice advances** paid back on a manageable schedule.

Working capital will let you **increase production** this week and **make more sales** next month.

With FundThrough, you can eliminate your cash flow woes and grow your business with predictable cash flow, a financial safety net, and an expert team behind you that wants to see you succeed.

## Be in control of scaling your business.

In four easy steps:

### 1. Create a free account..

Sign up in less than 3 minutes.  
Have a cash flow safety net on hand for a rainy day.

### 2. Connect.

Connect invoicing software and tell us where to send funds.

### 3. Fund unpaid invoices.

Select one or more invoices to fund.  
Any time. On demand.

### 4. Ship sooner.

Be in control of your cash flow so you can ship more orders. Faster.

## We love our clients, and they love us.

### Quinn Roukema

Co-Founder & CEO, E-Retail Society Group

With FundThrough, we got the cash flow we needed to supply larger orders and grow our business. Now we have a larger range of retail partners and are growing fast! Getting set up was easy, approval was fast, and the staff have been great.

### Justyna Kozlowska,

Founder & CEO, NAGI

I was launching a new product and that meant additional costs. Instead of waiting 30 to 40 days for my largest customer to pay, with FundThrough, I actually got the funds right then. That meant I could start production right away.
